

Department Design Thinking Sessions

To harness the collective intelligence and creativity within OTIC departments, we are excited to introduce customized Design Thinking Sessions facilitated by Switch. These sessions are crafted to address the unique challenges faced by each department and to spark innovative solutions that propel us forward.

Please fill out the form below and submit your ideas for a specific session by February 9, 2024. If you'd like to brainstorm ideas, please schedule a virtual collaboration session with us [via this link](#).

Session Idea Prompts

- **Reflect on a Challenge:** What are the most pressing challenges or roadblocks hindering your department's progress? Consider issues that, if addressed creatively, could significantly enhance efficiency, collaboration, or overall performance.
- **Future Vision:** Envision the ideal future state for your department. What transformative solutions would propel your team towards success? Think beyond incremental improvements and imagine bold, innovative approaches.
- **Cross-Departmental Synergies:** Identify areas where collaboration between your department and others could lead to mutually beneficial outcomes. Are there shared challenges or opportunities that, when approached collaboratively, could result in innovative solutions?
